

# Musawenkosi COVID-19 Update

JANUARY 9, 2021

This gogo (meaning 'Grandmother') was brought to our attention this week. Her daughter recently passed away, leaving her with a 6 year old and 3 month old to look after. The gogo is over 70 and she was really struggling.

We were able to drop a food parcel off today, and then next week when they are back from leave our social workers will go to see her.

When we gave her the parcel, she burst into tears and said she thought that God had forgotten her.

Unfortunately this situation is common. Please pray for the elderly in our area, specially those looking after young grandchildren.
